WORKING-TOP STORAGEMASTER — Here's a rugged steel Storagemaster Knaack chest for storage and protection of tools and materials; on-the-spot table top work.

- Over 13 sq. ft. table top working area

- Knaack quality design and rugged steel strength.

- Cover lifts up or lies flat for working height table top

- Double reinforced 12 ga. cover lip prevents edge damage, twisting—seals tight

- Extra strong triple channel reinforced cover with two steel fold-down table legs

- Knaack's exclusive WATCHMAN lock system means maximum security

- Rugged closed-end skids, steel reinforced in caster area

**EXCLUSIVE
KNAACK**

**WATCHMAN
LOCK SYSTEM**

(Patent Pending)

**makes it virtually
impossible to force
or cut lock!**

Knaack engineering has designed a unique lock system which is standard hardware on most Knaack boxes. The Knaack WATCHMAN is a protective steel lock system that makes it virtually impossible to use a bolt cutter, crowbar or other device to cut or force the padlock.

THE KNAACK TOOL TRAY

Use this portable tool tray with JOBMASTER CHESTS to keep hand tools and accessories separate from other contents of chest.

Extra rugged lifting loops

Model 99 (4)
Model 109 (2)

Nothing like it bigger. . . nothing like it
more convenient — those were
Knaack's design specifications for
these versatile storage units. You can
put on Knaack casters and roll from
site to site, or, put in place permanent-
ly. Or, use the steel lifting loops to
carry from place to place with chain
and lift truck or crane. Extra large
shelves, double and triple reinforced
throughout for maximum strength and
durability. Brown enamel finish.

NEW

- 16 ga. steel construction

- Contractor acclaimed WATCHMAN type lock is single system—one key lets you open everything

- Extra rugged lifting loops are reinforced in stress areas

- Protective steel roof has positive locking and self releasing steel supports

Protective
steel roof

122

cu. ft.
capacity

WORKSTATION 119
60" x 42" x 84"
